

# Most people see a table.

# You see ideas that improve efficiency.

Business Navigation Team Leader, IKEA Distribution Services Nordics, location Älmhult or Torsvik

*You see things a little differently. So do we. We believe in discovering and developing the talent in each of us. Come see things a little differently.*

It is an exciting time in IKEA Distribution Services! As a crucial part of Supply chain we are securing high quality distribution services to the IKEA stores and customers and we are on a big journey with the multichannel transformation around the corner. With a high degree of ongoing development, a strong need for leading and coordinating from a market perspective, and with the need of continuously developing and supporting existing operations, the Business Navigation Team Leader will play an instrumental role in driving the related business navigation processes.

### **About you**

You will play a key role in the Nordic DS operations by driving and coordinating Business Navigation processes together with the Distribution Operations Manager.

To be successful in this position we see that you have the customer in focus, and are inspired by change. You have experience from Business Navigation position in a diverse environment where you have been translating reporting and analysis into business needs with support of your strong communication skills.

As a person we see that you:

- Are analytical with the ability to challenge established ways of working
- Have a natural talent for communicating in a clear and efficient way
- Are inspired by driving business navigation processes with Multi channel retailing and the customer in focus
- Are committed to deliver results
- Are fluent in English
- Have 3-5 years of experience in business navigation, controlling and finance and have a good understanding of logistics and supply chain
- Have an interest in leadership

### **About the job**

The main purpose of the position is to lead the navigation function to deliver processes and analysis to the operations enabling continuous improvements that meets or exceeds the established goals and in line with established routines and frameworks.

### **About the assignment**

- Lead the team of Business Navigators in the different units and functions
- Maintain and develop processes for goal setting, financial reporting, and analysis
- Actively contribute to high cost consciousness throughout the organization
- Support the processes of establishing new customer fulfilment units, i.e. Distribution Centres, Customer Distribution Centres and Parcel Units
- Translate and communicate goals and results in a language that everyone understands

Last day to apply is **31<sup>th</sup> of March 2017**.
